## profile:

I'm a hard-working, creative individual that loves learning. I excel at multitasking, quickly bouncing from project to project as needed, thriving in a fast-paced environment. From graphic to web design, I hunger for a challenging position in a positive atmosphere that encourages thinking outside of the box and trying new, exciting things. I'm a self-motivated, self-starting fast learner that can perform tasks with little direction. I'm very personable, working well with people, using excellent written and oral communication skills.
